

## Kiosk calendar installation procedure

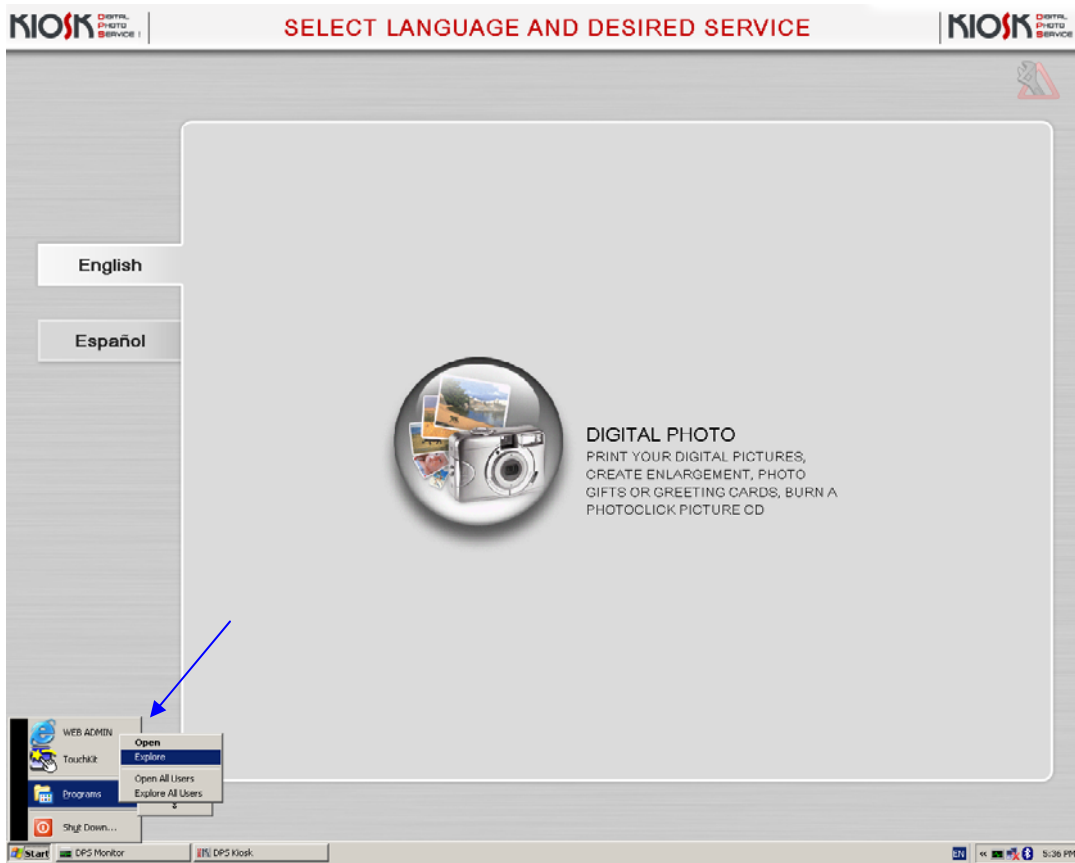

1. Boot up your Kiosk with keyboard and mouse connected
2. After the Kiosk displays the main page then insert the **calendar CD** to the Kiosk system
3. Press the Windows key  on the keyboard
4. Move mouse to “Start” at the lower left corner

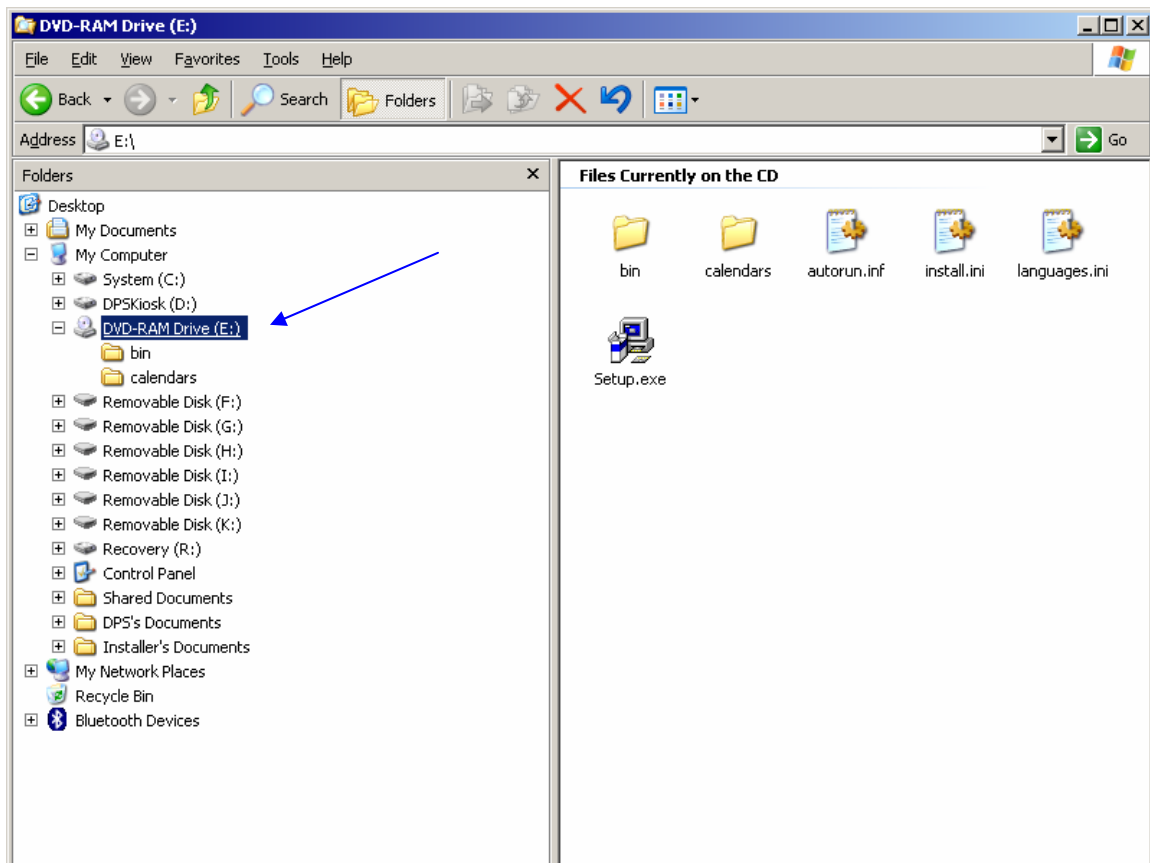

5. Right click **Programs**

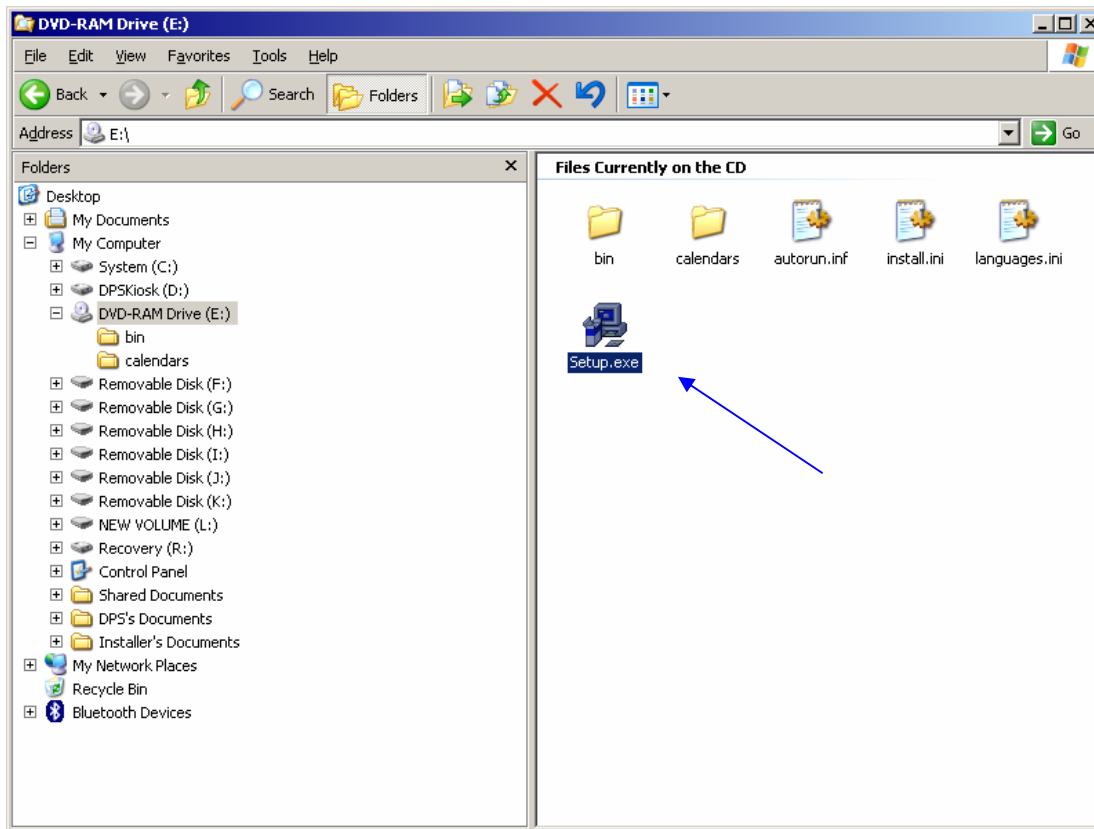

6. Left click **Explore**

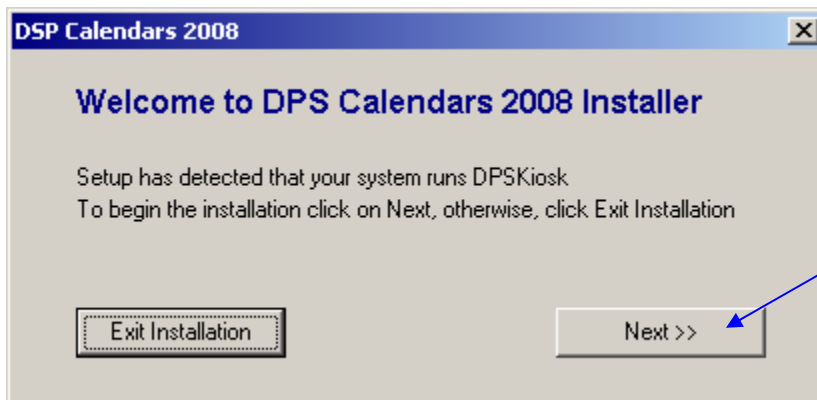

7. Move the mouse to the CD drive and left click the drive. You should see files on the right.

8. Double click the **Setup.exe**

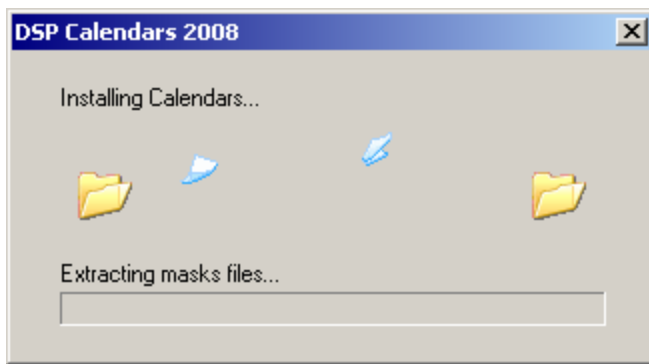

9. Click the **Next >>** button

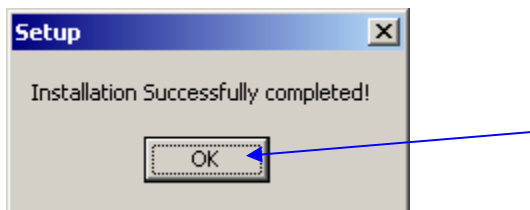

10. Click the **Install** button

11. Calendar files will be installed on your system

12. Click **OK** button to finish the calendar installation

13. Remove the calendar CD from the system.

14. You can go back to the Kiosk main menu and use the system as usual.
