DPS KIOSK Instant Digital Photo Printing

Shaping The Future Of Digital Photoprocessing.

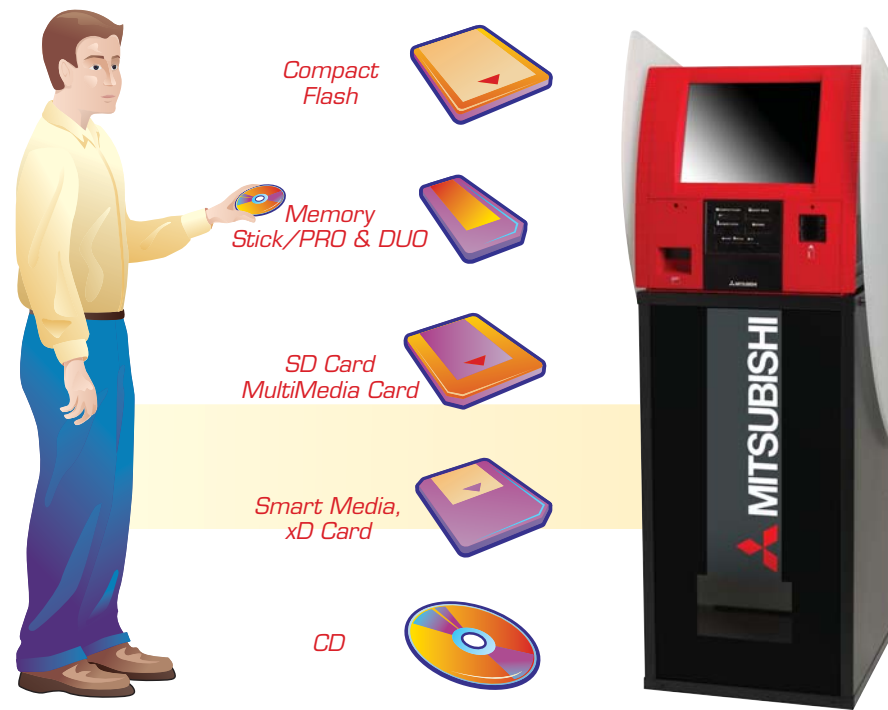

With the DPS Kiosk, consumers now have a convenient way to create do-it-yourself color print quality equal to traditional standards.

Instant Digital Printing For Your Customers Results In Instant Profits For You.

Mitsubishi's DPS Kiosk is a stand-alone digital photofinishing center that will provide you with immediate profit potential. With a large, user-friendly touchscreen menu, your customers will be able to use the DPS Kiosk with ease. Exceptionally compact, Mitsubishi's DPS Kiosk can be accessed on a countertop or mounted on an optional pedestal base. Either way, the unit's bright and stylish design will be the center of attraction in any photoprocessing center. In addition to accepting a variety of the latest digital media, the DPS Kiosk also incorporates a wide range of versatile performance features including multiple printer hookups, Bluetooth® wireless technology compatibility, several print size options, index printing, and can accept prepaid photo cards.

The DPS Kiosk is exceptionally versatile, accepting most of today's latest digital media and incorporating a wide range of photo editing and enhancement features.

Your customers will be delighted with the vastly superior, dazzling output that Mitsubishi's DPS Kiosk can produce.

Customer Prepayment Card
Prepayment cards ensure greater customer independence and loyalty through return business.

Internet Web Photo Album (Optional Service)
Users can load their images to view, share, and send them to any Mitsubishi DPS Kiosk. It's never been easier to share prints with family and friends.

Printer Performance And Photofinishing Application Versatility

Complementing the powerful features of the DPS Kiosk are Mitsubishi's CP-9550DW and CP-3020DU digital color thermal printers with astonishing resolution, clarity and color accuracy. You simply won't believe the dazzling output that Mitsubishi printers can produce. Plus, each Mitsubishi printer provides the utmost in quality and long-lasting reliability. The result is minimum maintenance and maximum efficiency. You can connect up to 3 different Mitsubishi CP-9550DW and CP-3020DU digital printers simultaneously to each DPS Kiosk, and depending upon the models utilized, you can offer your customers a variety of output sizes including 3.5 x 5", 4 x 6", 5 x 7", 6 x 8", 6 x 9", and 8 x 10".

You can bank on Mitsubishi's DPS Kiosk to increase your business and your profitability.

Digital Developing Fast And Easy

All your customers will be able to use the DPS Kiosk with ease. Simple step-by-step instructions on the large, user-friendly touchscreen are all that is required for your customers to create beautiful images. Jam-free performance and reliability also eliminates time-consuming maintenance and lines of frustrated customers.

Image Editing And Enhancement

In a matter of seconds, customers can make high quality, professional quality prints. The DPS Kiosk enables them to successfully utilize a wide range of editing and enhancement options so their prints are exactly the way they want. Need to reframe a picture? Enlarge a bit? Lighten? Rotate? Eliminate red eye? No problem. With color, black and white, or sepia options, the DPS Kiosk is all about versatility. The result is a happy customer who will return again and again, and tell others as well.

Burns From CDs Quickly

For users that want to burn a CD, the DPS Kiosk boasts an exceptionally quick turnaround time. With a 40 second average burn time for a 24-image photo CD, the DPS Kiosk will ensure greater customer volume. The CD also comes with software allowing users to easily view their pictures.
